

SALES ANALYSIS PRESENTATION

Data Insights from 2013 to 2016

September 20, 2026

KEY SALES SUMMARY

A high-level snapshot of total sales performance.

Data covers daily sales records
from Dec 2013 through Nov 2016

TOTAL SALES

ZAR 186,909,828.10

South African Rand

TOTAL QUANTITY SOLD

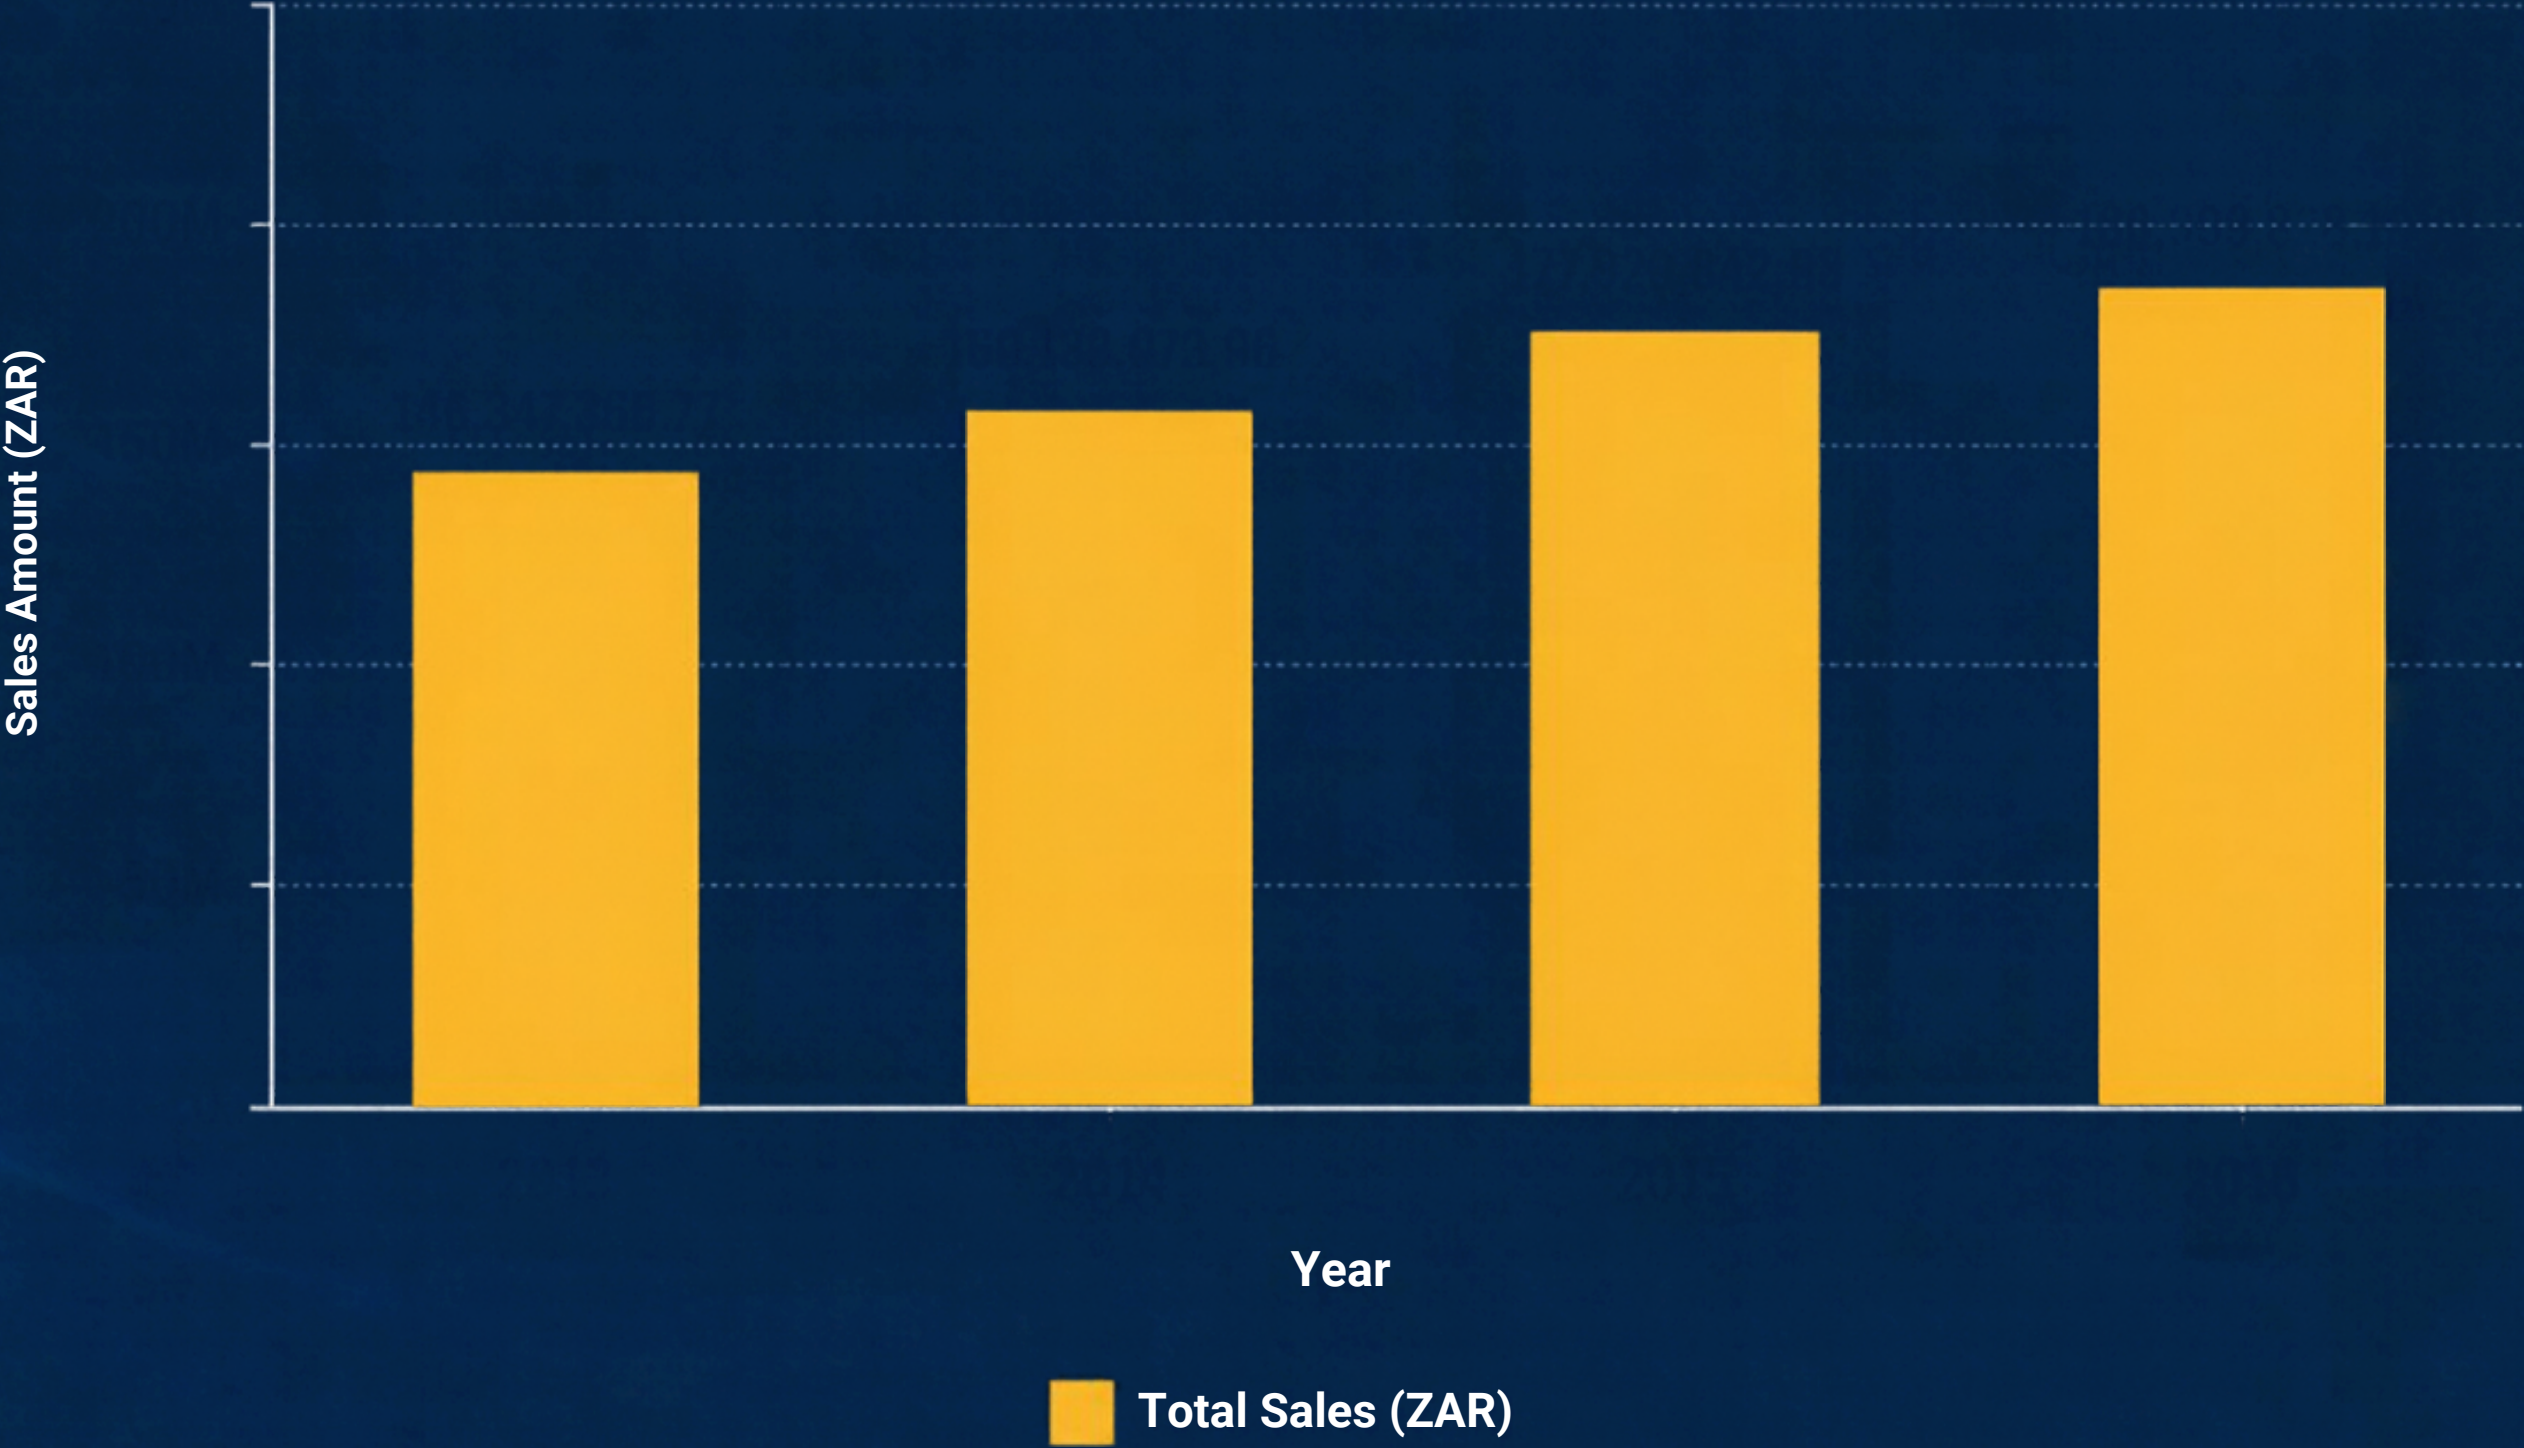

5,279,872

units

SALES BY YEAR

consistently strong performance
with steady growth over the period

ANNUAL SALES PERFORMANCE (ZAR)

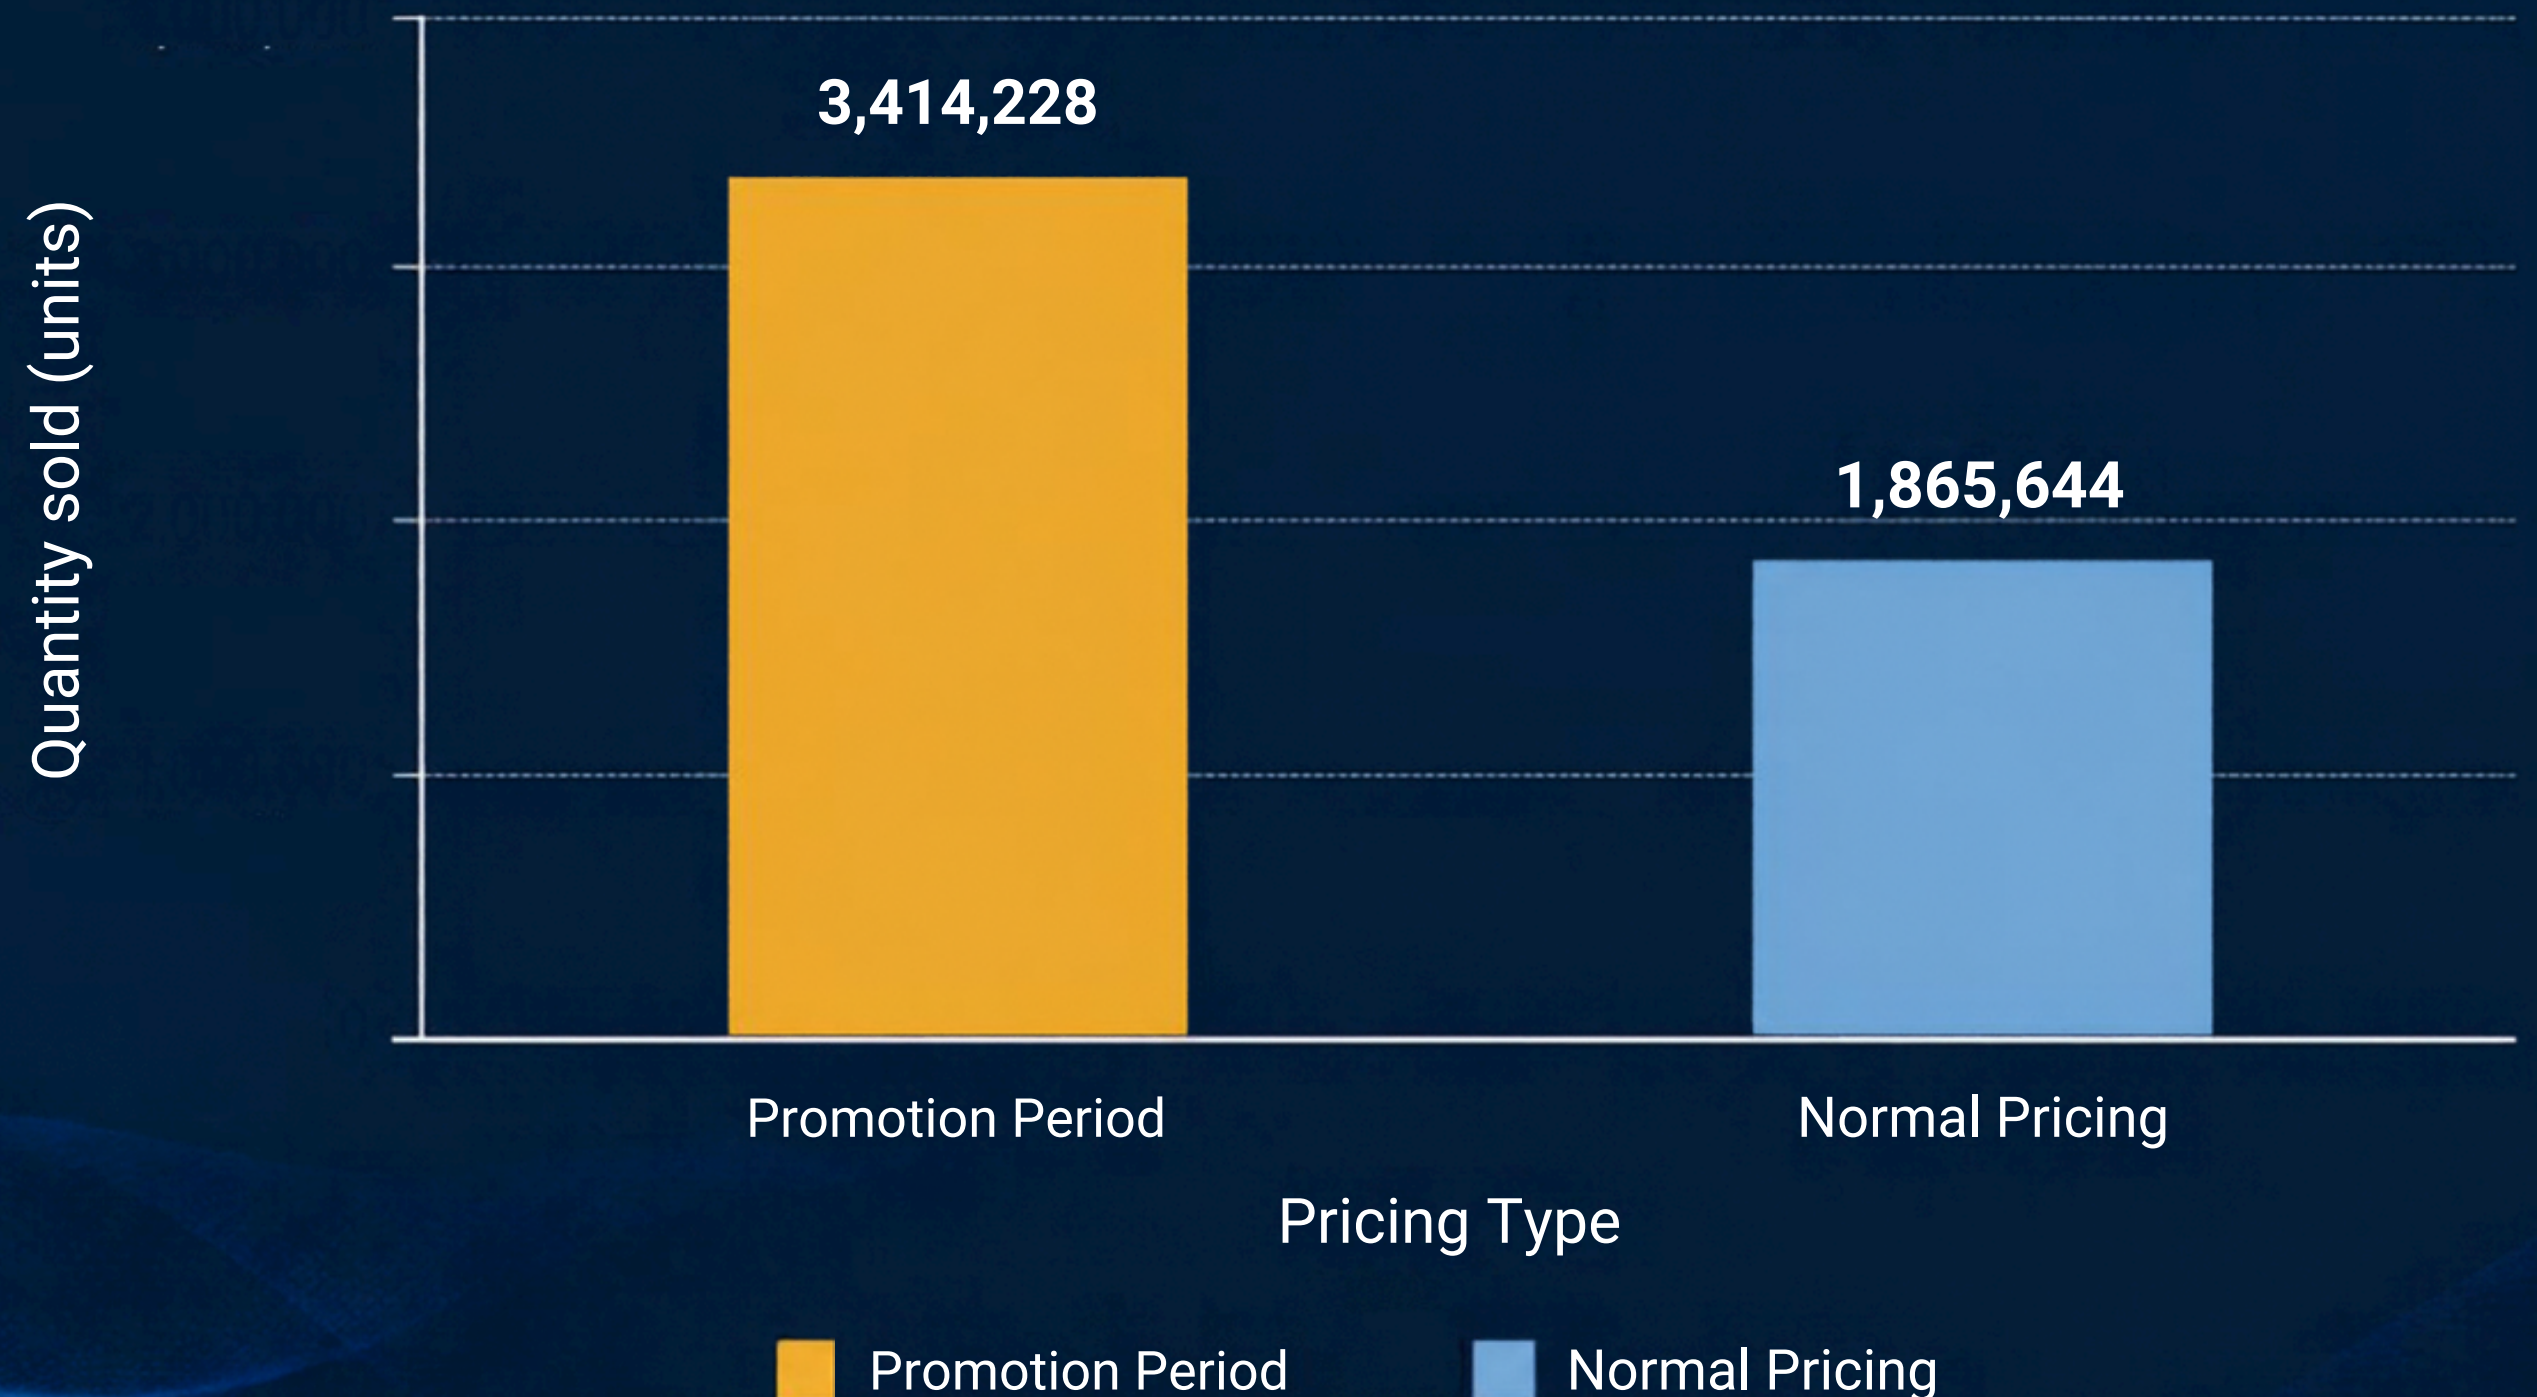

QUANTITY SOLD

Promotion periods drive higher unit sales than normal pricing.

Leverage promotional windows to maximise volume.

QUANTITY SOLD: PROMOTION VS NORMAL PRICING

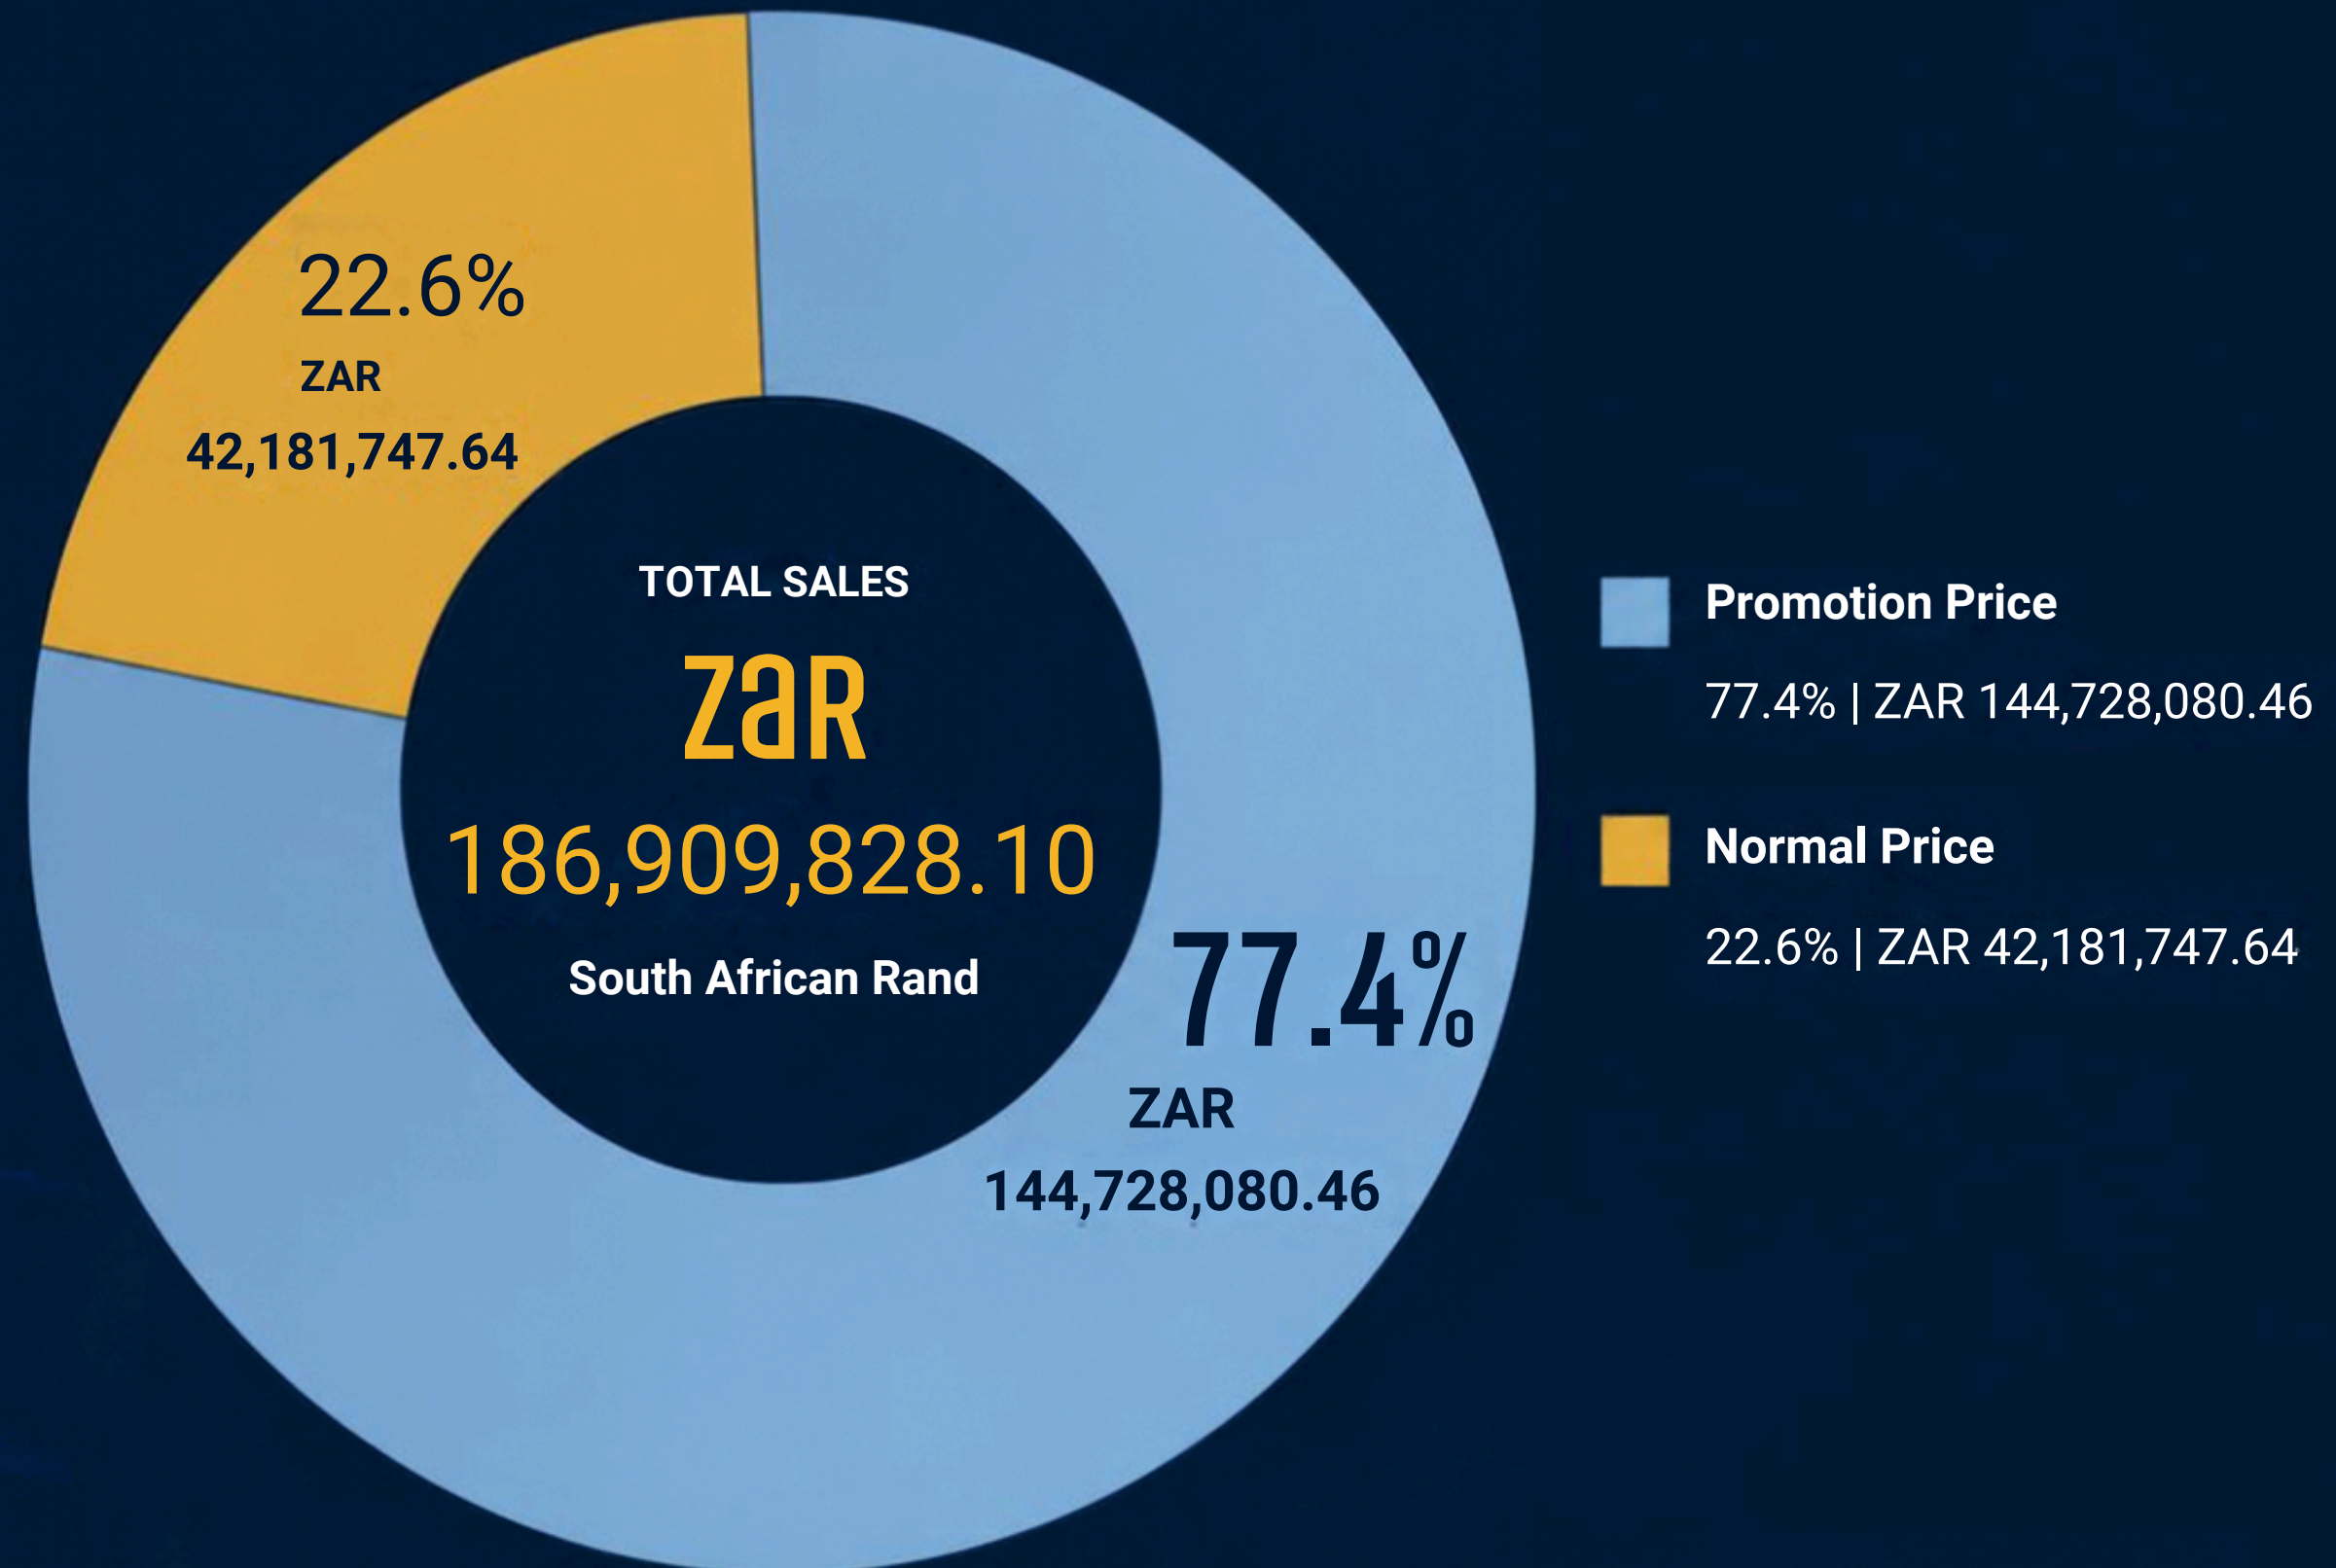

SALES SHARE BY PRICING TYPE

Promotional pricing
drove the majority of total
sales during the period.

Insights help drive
smarter pricing and
promotion strategies.

Share of Total Sales by Pricing Type

Figures may not total 100% due to rounding.

PROMOTION PERFORMANCE AND PROFITABILITY INSIGHT

A significant share of promotion-period sales records show **negative gross profit margins**.

Promotions consistently drive higher volume, but at **elastic demand** levels.

While promotions boost quantities sold, **profitability is often compromised**.

KEY INSIGHT

12-14%

of promotion records
deliver negative
gross margins

Volume uplift comes at a profit cost
in a meaningful number of cases.

CLOSING and NEXT STEPS

Strong sales growth over the years and higher volumes during promotions have driven results.

Profitability challenges remain.

Our Next Priorities

Review promotion strategies focusing on profitability

Analyze price elasticity for optimized discounting

Monitor loss-making promotions closely
